DETAILED ACTION

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

1. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Majima (WO 01/092417 as evidenced by US 6780482, which is used as an Equivalent English document).

This rejection is as set forth in the action dated 11/28/06.

Conclusion

Response to Arguments

2. Applicant's arguments filed 4/16/08 have been fully considered but they are not persuasive. Applicant submitted a declaration 12/19/07. In light of the declaration Applicant argues that the half value of crystallization is not met by Majima. Applicant argues the Examiner's arguments based on the original Ex 12 of the specification are improper due to the amendment changing 0.39 to 0.25 and the declaration set forth previously. Applicant argues Comp Ex 1 and Ex 3, 9 and 10 demonstrate that the recited half value is not necessarily inherent in Majima.
3. The Examiner disagrees. The declaration is not persuasive for the reasons already set forth. The proposed amendment to Ex 12 of the specification is not proper since there is no evidence or disclosure or declaration showing why the originally filed

table was deficient. Said proposed amendment is thusly regarded as new matter. Applicant's argument of support found in the declaration filed 12/19/07 page 2 is not persuasive since there are is no experimental evidence that said experiment was done at the time of the declaration and since it seems that Applicant has merely summarized the data from the amended specification, which is not proper. Regarding Comp Ex 1 and Ex 3, 9 and 10, only Ex 3 is somewhat comparable to the disclosure of Majima since the rejection set forth is over the blend of PET and PBT. However, said Ex 3 exemplifies PET and PBT in combination with additives such as silica and phosphorous, which are not in the claim nor in the rejection over Majima. Thusly, Applicant's argument that the composition of Majima does not inherently possess the properties is found moot. The rejection is proper and stands.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
